COBBINS, SYLVIA D (id #35731, dob: 08/05/1968)

WITH YOU. FOR LIFE.

Date: 10/24/2014

RE: Sylvia Cobbins, DOB: 08/05/1968, PT ID #35731

To Whom It May Concern:

Ms. Cobbins is being seen by me for carpal tunnel syndrome. She has had carpal tunnel syndrome for the past 3 years and I both hands. She returned to work following her surgery which resulted in the reinjuring of both hands. Re-injury is very common return to performing the same tasks that originally caused the injury.

Because of the nature of her problem, she has impaired grip strength in her hands and is unable to perform certain fine and gross activities i.e. writing, gripping, or lifting. Simply put, Ms. Cobbins is no longer able to hold the handle of a vacuum, broom or is unable to write.

Please contact me for more information if necessary.

Sincerely,

Electronically Signed by: KITA WILLIAMS, MD

A handwritten signature in black ink that reads "K. Williams, M.D."
